

EMPINGHAM PARISH COUNCIL

RESPONSE TO REGULATION 19 PRE SUBMISSION PLAN

Introduction

We must start with an apology for not using the on line response form. Circulating drafts for comments amongst councillors and residents and inputting various amendments to the on line form, proved beyond our technical capability. We have followed the pro forma information requirements, and file our response electronically to enable ease of use for the County Council and the Inspection project manager. We will also provide a hard copy to the planning team.

We enclose six separate submissions on various issues

- A summary document as to why we find the process and progress from regulation 18 to regulation 19 of the Local Development Plan formulation to be fundamentally unsound.
- A representation No.1 on Chapter 3 Vision and Objectives which we accept as legally compliant , but not sound.
- A representation No.2 on Chapter 8 and Policy SC2 , sustainable transport, which we accept as legally compliant, but again not sound

- A representation No.3 on Policy H2 which we assert to be neither legally compliant nor sound
- A representation No.4 on Chapter 5 PolicyH6 which we accept as legal, but not sound
- A representation on No.5 Policy H4 Stamford N ,which we believe to be not legally compliant or sound.

We assume that the whole of our objections will be put before any Inspector, unless there are major modifications to the Plan which will be subject to further public consultation.
